

INTER-ACTIVE OBJECT LESSON

Watch Where You Step

- **WHAT YOU'LL LEARN:** *Follow your heart*
- **WHAT YOU NEED:** 12 eggs
1 tarp
2 blindfolds
Paper towels
2 contestants
- **PREPARATION:** Place the tarp on floor in front of the class.
Place eggs all around the floor on the tarp.
- **INSTRUCTIONS:**
1. 1st contestant walks across the tarp with out any assistance. (Teacher can even deliberately place egg on floor in path to make sure they step on one.)
 2. Second contestant walks across the tarp with the teacher giving verbal assistance of where to step.

SPIRITUAL APPLICATION:

Life is full of all kinds of disasters in front of us. Father God loves and cares about us very much and has made a way for us to bypass the messes laid before us. No one is exempt from bad things happening to them. Things happen to all of us, but we can avoid a lot of messy situations if we follow our heart and watch where we step.

When we try to go on our own and do what we want, then it can become very messy. But as you see, when we follow our heart and take time to listen we will bypass and sometimes go around obstacles in front of us.
